

1. Rectangle
2. Offset
3. Circle x 4
4. Fillet
5. Line
6. Hatch

(i) Lengthen allows you to change the length of a line either dynamically, as a percentage, or to an intended length.

(ii) Pan allows you to move the focus of the viewing window.

(iii) Zoom allows you to view a smaller area in more detail, or a larger area in less detail, without changing the drawings dimensions.
